

Sergio Andrés Majé Franco

Software Developer

📞 +57 312 528 0239 | ✉ smaje franco@gmail.com | 🌐 smaje | 🎧 smaje99 | 📍 Florencia, Caquetá

Software developer focused on **backend and data**, with experience in **digital transformation** initiatives building solutions for **information extraction/processing**, component optimization, and **data integration**, applying best practices, refactoring, and configuration control to improve software **quality and security**; I have **completed my academic training, with my degree pending**, and complement my education with diplomas in **BPM** and **Data Analytics**, bringing autonomy, analytical thinking, and adaptability to scope changes.

Experience

Centro de Desarrollo Tecnológico para la Transformación Digital y la Industria 4.0

Mar. 2026 – Present

Software Developer (Part-time)

Cali, Valle del Cauca, Colombia; Remote

I work as a software developer on a medical audit project, translating requirements gathered in stakeholder meetings into user stories and implementing new features with automation and technical assistance. I also develop features on an existing codebase, participate in occasional deployments to the test server, and lead the progressive migration toward a hexagonal architecture and Atomic + ITCSS styles when needed.

Centro de Desarrollo Tecnológico para la Transformación Digital y la Industria 4.0

Aug. 2025 – Oct. 2025

University Intern

Remote

I worked as a university intern in backend development and data analysis, contributing to digital transformation initiatives by creating tools for information extraction and processing, improving internal components of existing platforms, and integrating technical data into MongoDB-based systems; additionally, I strengthened the software's security, organization, and quality by applying best practices, refactoring, and careful configuration management, standing out for autonomy, adaptability to scope changes, and delivering solutions aligned with the center's needs.

Education

Fundación Universitaria Internacional de La Rioja – UNIR

Completed; degree pending

Computer Engineering

Virtual

Academic training completed, with the degree pending, and solid training in programming, algorithms, data structures, databases, software development, and IT services.

Pontificia Universidad Javeriana

Feb. 2026 – May. 2026

Diploma in BPM for Digital Process Transformation

Virtual

I completed a diploma in BPM for Digital Process Transformation, acquiring knowledge and skills in business process management, modeling, analysis, and optimization applied to digital transformation.

Fundación Universitaria Internacional de La Rioja – UNIR

Oct. 2025 – Dec. 2025

Diploma in Data Analytics for Business Management

Virtual

I completed the Diploma in Data Analytics for Business Management (certificate pending), acquiring skills in data analysis, information visualization, predictive modeling, and data-driven decision-making.

Skills

Technical: Python/FastAPI, Machine Learning (SciKit-Learn), SQLAlchemy, Node.js, PostgreSQL/MongoDB, Redis, REST/JWT, OWASP, React/Next.js, HTML/CSS, JavaScript/TypeScript, Git/GitHub, Scrum.

Soft: Analytical thinking, effective communication, teamwork, collaboration, adaptability, creative problem solving.

Languages: Spanish (native), English (intermediate).

Certifications

Data Protection, Privacy, and GDPR Compliance – Udemy (2026)

Business Process Modeling A-Z™: Master BPMN 2.0 from Scratch – Udemy (2025)

Continuing Education Certificate in Leadership – MIU City University Miami (2025)

1st International Virtual Meeting: Dialogue between Disciplines - AI Impact – UNIR (2025; academic participation)

Statistics for Data Science and Data Analytics Course – Udemy (2025)

Next.js Course: Web security with OWASP – Platzi (2025)

Linear Regression with Python and scikit-learn Course – Platzi (2024)

FastAPI: Modularization, advanced data, and errors Course – Platzi (2022)
